

The Insurance products deliver a package that entirely complements **INTERNATIONAL RED FLARE'S** Crisis Response Support System by covering the financial costs associated with employees who are affected by a crisis.

The Insured Programme includes:

- Personal Accident and Medical Evacuation
- Sickness with Medical Evacuation
- Life Cover - Death by Natural Causes
- Political Risk Evacuation
- Evacuation "Other" Causes
- Kidnap and Ransom

AKE will respond to all sections of the above under **INTERNATIONAL RED FLARE**; so creating a seamless support system from the time of the incident to its resolution.

Its competitive features are:

- War and terrorism cover included
- Cover for accidental bodily injury on a "per trip" declaration basis, which achieves a more economic premium cost.
- Rates and premiums are matched to AKE's high-risk country ratings to provide an accurate and low premium base.
- Bodily injury cover includes minor bodily injuries and loss of hearing.
- "Death by Natural Causes" cover supplements or substitutes benefits under corporate pension plans.
- Medical Evacuation from high-risk regions is managed by AKE.
- Evacuation for "other causes" including rising political tensions is managed by AKE.
- Response to kidnap threat or extortion is managed by AKE.

INTERNATIONAL RED FLARE RETAINED SERVICES

End-to-end support is ensured for companies and organisations who are partially or wholly self-insured by retaining the services of **INTERNATIONAL RED FLARE**.

Services to complement an organisation's in-house resources:

- Emergency Planning
- Contingency Plans
- Crisis Management
- Evacuation with Medical Support

Whatever the client requirements are there is a solution under **INTERNATIONAL RED FLARE**. Whether insured or self-insured **INTERNATIONAL RED FLARE** will provide "Peace of Mind".

GLOBAL LIFE SUPPORT

CRISIS RESPONSE SUPPORT SYSTEM

AKE's **INTERNATIONAL RED FLARE** brands a unique global life support system for organisations and companies operating in the most difficult environments. **INTERNATIONAL RED FLARE** brings together unique expertise to provide comprehensive support in any and all crisis situations. With packages designed for the specific needs of clients from Personal Accident and Medical, through to Political Evacuation and Repatriation as well as other specialist risks, there is an insured or uninsured product for clients under **INTERNATIONAL RED FLARE**.

To be successful, a company or organisation deploying to a high-risk environment, must base its planning on accurate risk assessment. Methods to ensure the most effective day-to-day running of the operation will always take priority. However, an aspect which should warrant similar priority, but which in many cases is neglected, is crisis management. This is often addressed merely by the addition of a phone number to an outside agency, where the contractual small print lies concealed and dormant alongside the additional costs of actually having to use the system.

Contingency plans for deteriorating situations and emergency procedures are essential, as is the confidence that when needed, support in the circumstances is not only there, but taking the lead.

With an **INTERNATIONAL RED FLARE** contract clients have the reassurance that they are supported by professionals.
