

Close Protection Officer

AKE's unrivalled experience and leadership in the field have formed the basis for a close protection course that equips students with the necessary skills to work in this dynamic and challenging industry.

AKE's Close Protection Course is structured around the Security Industry Association (SIA) licensing programme, offering BTEC Level 3A qualification.

The course is designed and taught by experienced former Special Air Service personnel, taking into account current protocols, teachings and past experiences with lessons learnt, and involves real-life case studies.

On successful completion of the course students will be qualified to work in the evolving arena of close protection, with course content and quality of teaching ensuring they reach the high standards required for success within this competitive environment.

The course is open to both male and female students who are self-motivated with a 'can do' approach. The course is rewarding, both personally and financially, and offers a myriad of employment opportunities for the future.

For the high achievers from the course, AKE has excellent links for ongoing employment.

A BTEC and HSE-approved training centre

Close Protection Officer

Since inception in 1992 AKE continues to set the highest professional standards and lead the way for training in the United Kingdom.

The close protection course will be run over 15 consecutive days at AKE's training centre headquarters in Hereford. The course is open to individual and group applicants from all areas, with either civilian or military backgrounds.

Applicants should have at least a First Aid at Work qualification prior to starting the close protection course. AKE offers First Aid at Work as a course package option.

Additional benefits of AKE training include:

- Optional Professional Security Insurance
- Optional Advanced Tactical First Aid Course
- Top candidates from the course will be considered for AKE employment
- Financing options available
