

AKE CONDO Training

AKE is a leading international security risk mitigation company providing a variety of fully integrated services. AKE distinguishes itself from other security services companies by taking a proactive, intelligence-led approach to assessing, monitoring, training for, reacting to and protecting against risk. We assist clients in reducing their exposure to danger across a broad spectrum of risks.

AKE ethos

'Our objective' To support our client's operation and internal departments with a range of risk mitigation services and products. The aim of our support is to assist our clients 'to protect the integrity of the operation in order to maximise potential'. The integrity of client operation, in this context, means the unity of the whole operation and the security of physical assets; through the health and effectiveness of personnel, to the relationships between the operation and the community within which it operates.

AKE provision for MOD Contractors on Deployed Operations (CONDO Training)

- Fulfils Defcon 697 and JSP 567 criteria
- Accredited Edexcel training centre (offering BTEC Level 3A courses)
- Accredited HSE training centre
- SIA approved centre
- Additional training portfolio to provide flexibility (worldwide provision)

How does AKE deliver ?

AKE recognises that for many, a course comprising of a number of days is unfeasible due to time and/or costs.

However, the MOD stipulates that the contractor is liable for appropriately briefing and preparing all those visiting or working in operational areas. To achieve this AKE provides:

1) Pre-deployment Briefing (operational area specific)

Designed to allow the contractor flexibility, this can be booked at

short notice and fulfils the knowledge needed for a specific deployment location - in conjunction with MOD required core skills that are covered earlier at a more convenient time.

2) AKE Core Skills Training AKE Benchmark CONDO Course (2-, 3- and 5-day standard variants) HSE 'First Aider Appointed Person' qualification

- Location-specific threat analysis
- First aid training
- Self-sufficiency
- Working with the military
- Stress-related illness
- Weapons, effects and personal protection
- Climatic conditions
- Mines, unexploded ordnance and improvised explosive devices
- Prevention of disease
- Working with aircraft and other military transport
- Personal security
- Vehicle travel and security
- Kidnap and hostage situations (incl. avoidance)
- Military medical support
- CBRN training, effects and personal protection
- MOD policy and procedures course reading and briefing

AKE CONDO Training

Testimonials

"The AKE security training on Iraq gave me the confidence to be able to cope with the unexpected and the knowledge that in a difficult situation I would be able to look after myself and be able to help my companions. The training was the perfect balance of theory and practice. It also convinced me that the AKE training would be equally useful for very many locations all over the world and should be used by companies sending staff to work anywhere overseas where systems and support are likely to fail."

- Kate Board, British Council

"They're the industry leaders in training and protecting those of our staff working in harm's way. Even those of us who think we have nothing to learn have been humbled at the hands of AKE."

- Chris Cramer, Managing Director, CNN International

AKE Training Heritage

AKE Ltd is the industry leader in training civilian personnel being deployed to remote or conflict locations, and was the first company to design and deliver this type of training in the early '90s.

AKE has the experience and knowledge to assist your organisation in a variety of different ways to work within the MOD CONDO framework (and not just in a training context).

- Public courses and private provision
- In theatre or operational area training
- All AKE trainers have extensive training experience across different industries, worldwide.
- Medical training
- Conflict resolution training
- Travel health, safety and security awareness
- Security
- Combination of above (AKE has complimentary modules that can be tailored to suit clients needs)
- Public courses in USA, UK, Australia
- Edexcel BTEC Level 3A
- HSE accredited training centre
