AKE is a leading international security risk mitigation company providing a variety of fully integrated services. AKE distinguishes itself from other security services companies by taking a proactive, intelligence-led approach to assessing, monitoring, training for and protecting against risk. We assist clients in reducing their exposure to danger across a broad spectrum of risks.

AKE Special Risks is an integral part of the AKE group and follows their approach to risk management, drawing on their expertise and experience to find the most appropriate solutions for war and terrorism insurance for the client.

AKE's insurance services are closely linked to AKE intelligence services creating a more "complete" approach to the risk transfer process for any individual or organisation.

Clients benefit from AKE's instant access to specialist underwriters at Lloyd's who recognise AKE's proven expertise in hostile regions training, risk analysis and intelligence.

AKE pioneered the first "complimentary" personal accident insurance cover with their surviving hostile regions course and has negotiated other competitive products for individuals and groups with exposures in hostile regions.

If your work entails you or your colleagues travelling to remote or hostile regions you should be considering cover for:

People

- Personal Accident including death, disability and medevac
- Medical whilst working overseas
- Kidnap and Ransom

Discounts are available for graduates of hostile regions courses and close protection assistance.

Corporate Liability

- General liability to third parties
- Liability to your own employees
- Professional Indemnity / Errors and Omissions
- Contingent Life

Corporate Assets

- Company Property - all risks
- Mobile Assets and Vehicles - collision and political violence cover
